FROM THE DESK OF DIRECTOR / PRINCIPAL

Dear Colleagues,

Season's and Warm greeting to all of you.

As You know teaching is a novel profession and miltifaceted activity. It is every changing and full of intrinsic rewards. In fact, the skills that you have acquired over the year as a teacher shall prove invaluable in presenting effectively a body of knowledge, providing constructive feed back, fielding questions astutely and evaluating student performance. Basically our students are diverse in their cultures and ethnicity, their experience, their leaning styles, and many other dimensions. And all of these dimensions shape who they are and how they learn. Effective teachers must understand this and use a variety of teaching methods to promote student learning.

To perform concisely two of most important elements in good teaching are:
1) planing and organization and 2) a demonstrated sense of commitment to students learning.

I would rather emphasize that as a teacher we should ensure "learner-centered" from of education in the class room, a practice in which student and teachers learn from one another. it is because we expect our computer to learn, design educational experiences to advance their learning, and provide opportunities for to demonstrate their success in achieving those expectation.

Learner-centered education requires a total focus on student learning, but we also know that all the learners are not equally invested. Regardless of how we teach and what technology we bring into the classroom or outside the classroom, we need to be proactive in our quest to access through various of feedback the extent to which our investment is working and meeting our defined objectives.

And finally, "Academic Excellence our Essence" should be the brand image of this great "GURUKULA" and I seek your active involvement in this direction and cooperation in all development activities if this institute to make in the best.

Wishing you all great success in your academic endevours.
